REPLY.

(To be written on this margin.)

Office of the Dewan of Mysore.

NOTE.

Dated.....29th Feby. 20.....

Camp, Kallurkatte.

-----ooo-----

It is represented that the work of Sanitary Inspectors is not efficiently supervised as the Amildars under whom they are now working are not technical officers. I should li to know why the control and supervisi over the sanitary Inspectors should not be transferred to the District Health officers, who are ex-officio members The file relating to the subject may be put up with a note.

The Secretary to Govt.

Revenue Department.

N O T E.

14 (1) The file relating to the re-organisation of t
Public Health Department is put up. It will be s
that the point raised above has been discussed at
great-length and the Deputy Commissioners have
unanimously ~~agreed~~ given the opinion that the Sanitary
Inspectors in the taluks should be subordinate to
the Amildars and submit diaries of work to the
Health officers through that officer. The above
opinion has been accepted ~~as~~ as being ~~much as it is~~
conducive to the efficient discharge of duties
connected with rural sanitation, and also as it prevent
the system of dual control which is detrimental to
good work. Further, these Sanitary Inspectors
are also employed on some duties other than those
of sanitation, and this practice has been permitted
(vide rule X of the Sanitary Inspectors' duties),
on the score that this class of officers replaces
the work Inspectors who were looking after Minor
Public Works. Though the Amildar is the immediat
superior, yet it is obligatory on the part of the
District Health Officers to examine ~~xtex~~ the work
of these officers, whether they are employed in a
Municipality or a taluk Board, and report thereon
to the controlling authorities (vide rule 2 of
Government order dated 5th September 1918). Thus
the District Health Officers can supervise the
work of the Sanitary Inspectors.

X R. No. 4927-36/San 24-17-9 W) 5.9.18.

This is with the sanction of the Government

F. Theoretically Pantas a member of fact S.I's look up the Tah. officers and the D. S.

(B)

Serial No.

5 (V) As regards control, the present arrangement is based on the principle that those who pay should control the services. The pay of the Sanitary Inspectors is met entirely out of Local Funds and not out of State Funds, and they are therefore made subordinate to the ~~xxxxxxx~~ executive heads of these local institutions. This system is in conformity with the practice obtaining in Bombay and Madras Presidencies.

6 (3) Finally, it may be added that there is not much of technical knowledge really required ~~from~~ for the supervision of the work of the Sanitary Inspectors. An Officer like the Amildar having intimate local knowledge should be able to check the work of these Inspectors satisfactorily.

15.3.20.

5936-320-7
15.3.20.

Since the S.I.s have practically taken the place of the old W.Is. in the talukas they are used as "handy men" by the Amildars. & it is very doubtful if much of real sanitary work is done by them. Bombay presumably there are administrative difficulties in the way for the reasons stated in the Rev. Secy's memorandum. Still they are not of an insuperable nature & it seems to me the question of the re-organisation of the P.W.D in so far

as Local Boards work is concerned it was under consideration & when a decision is come to in this matter it will be easier to deal with the case of S. Is. Since they will no longer be required to do the odd jobs in the Talugs, but will be available for what they are primarily intended, viz Sanitary work.

ABSTRACT OF DISCUSSIONS AT THE MEETING OF DEPUTY COMMISSIONERS AND SELECT HEADS OF DEPARTMENTS HELD IN MARCH 1920.

ABSTRACT OF DISCUSSIONS AT THE MEETING OF DEPUTY COMMISSIONERS AND SELECT HEADS OF DEPARTMENTS, HELD IN MARCH 1920.

Serial No.	Subject	Points discussed	Brief abstract of discussions	Decision arrived at, if any, or action proposed to be taken	Branch or officer responsible	Remarks
I.	Minor Tank Restoration Scheme and revision of the Maramat Establishment.	Approving of the draft Government order laying down revised rules for levy of contribution.	The option given to the raiyats to do earthwork in lieu of ⅓ contribution may be omitted from the draft order and the contribution made compulsorily leviable by legislation after a defined programme of work is drawn up in each district. The contribution may be treated as a Revenue Demand and D. C. B. statements maintained of these contributions. The programme may be drawn up by the Deputy Commissioners in consultation with the people and duly notified in the Gazette and objections, if any, against restoration may be invited within a fixed period.	The contribution leviable may be reduced from ⅓ to ¼ on the total estimate without the option of doing the earthwork in lieu of the ¼ contribution. The draft Government Order as modified may be issued.	Revenue Secretary and Branch I Revenue Secretariat.	
I (*a*)	Accepting the technical security of the Maramat Engineer in all District Boards and Municipal works up to Rs. 1,000 or 1,200.		Pending the issue of orders on the Maramat Establishment re-organization scheme this change in the rule may be sanctioned.	The rule may be modified and the power to scrutinize estimates up to Rs. 1,000 given.	Do	
I (*b*)	Centralised Maramat Establishment under the Deputy Commissioners.	(1) The appointment of a Senior Assistant Engineer as District Maramat Engineer. (2) Appointment of a Sub-Overseer for each taluk in place of the Tank Inspector. (3) The appointment of an Overseer under the Maramat Engineer.	The Chief Engineer explained his scheme regarding the re-organisation of the Public Works Department on a quasi-state basis, the cost being debited to the State, Local Fund and other special grants. (*Vide* Subject XVI)	The Chief Engineer to draw up a note in light of the discussion as the Dy. Comr. were all in favor of a separate agency for all works carried out by the Revenue Department and the Local Boards. The opinion of the Dy. Comr. to be called for after receipt of the note.	Chief Engineer.	

Abstract of discussions at the meeting of Deputy Commissioners, etc.—*contd.*

Serial No.	Subject	Points discussed	Brief abstract of discussions	Decision arrived at, if any, or action proposed to be taken	Branch or Officer responsible	Remarks
II.	The statement of half-yearly progress reports to be revised so as to show the total progress under all sub-heads such as District Fund works entrusted to the Maramat Department, repairs to Civil buildings, repairs to tanks, etc.	.....	*Vide* I (*b*) above ...	.....	.....	
III.	Special Committee's report on revision of wet assessment.	i. Akarband to be discussed in the Representative Assembly.	The question of discussing the Akarband in the Representative Assembly meeting is impracticable.	.....	.....	
		ii. Settlement of a Tari Atchkat according to registers prepared by the Special Officers of the Public Works Department.	The present arrangement is the most suitable and the proposal is impracticable.			
		iii. Revision of the tank registers once in ten years.				
		iv. Addition of a Mathematical table of remission to the L. R. Code as in Madras and Bombay.		The Bombay Rules may be adopted and an order issued on these lines.	Revenue Secretary and Branch I of the Revenue Secretariat.	
		v. Grant of remissions to those who suffer from deficiency of crops as in Madras.				
		vi. Grant of powers of remission to local officers.				

		vii. Banjar remission should be extended to raiyats in Mysore as in Madras, Bombay and the Punjab. viii. The Director of Agriculture to be made Land Revenue Record Officer.			
IV.	What measures should be adopted to expedite the formulation of settlement proposals.	13 statements are required for formulating proposals including the "Salwar Vasuli." Remissions due to bad seasons are noted in the khirdi after they are sanctioned. The compilation of salwar vasuli is laborious and the Head Gumasta cannot cope up with this work. Some special help must be given to him.	The present method is obselete and the taluks may be asked to send a copy of the accounts every year to the Survey Superintendent who may compile his own accounts.	Assistance may, when absolutely necessary, be given by appointing additional hands. The Survey Superintendent should, however, be satisfied with as many years' accounts as the Dy. Comrs. can furnish.	Do
V.	Miras to Totis and Talaries	1. The Committee are of opinion that such remuneration should be a charge on the land revenue, 2. The rate now fixed is too high and must be reduced. 3. If Government deem such levy necessary, a cess may be collected equal to the raiyats' share of contribution.	The remuneration now paid is unfair and as these village officers are necessary, the rules may be modified. The Revenue officers may recommend lands wherever available as Inams to these village officers.	The rules may be modified by ordering a levy equivalent to 2 annas in the rupee on dry, and one anna on wet and garden assessment. The Inams held must be made inalienable and impartible. The extent of land to be given as Inam should not exceed 10 acres if dry 3 or 5 acres if wet, in addition to the Miras. The Representative Assembly Members may be consulted with regard to the levy of a cess.	Chief Secretary and Revenue Secretary.
VI.	Conservancy of avenue trees.	1. Should the present arrangement continue? 2. What special establishment should be sanctioned for this purpose,	Fruit trees may be encouraged to be planted and the Local Boards may sanction grants to Village Panchayets for undertaking the care of these avenue trees.	The matter may be discussed by the District Boards with regard to Local Fund roads and the Chief Engineer with regard to Provincial roads.	Revenue Secretary and Branch III of the Revenue Secretariat and Chief Engineer.

Abstract of discussions at the meeting of Deputy Commissioners, etc.—*contd.*

Serial No.	Subject	Points discussed	Brief abstract of discussions.	Decision arrived at, if any, or action proposed to be taken	Branch or Officer responsible	Remarks
		3. Whether the work can be handed over to the V. I. Committee and the Local Board and, if so, under what conditions.				
7	Revision of the form of the Progress Report of Village Improvement Works.	A few more headings to be introduced to make the form complete.	An amount may be set apart out of the V. I. Funds for the maintenance of the V. I. roads. As about Rs. 25 are enough to maintain one mile of road Government may be pleased to sanction half of this amount as contribution from the V. I. Funds.	An order may be issued to this effect. Government may contribute an amount equal to the amount collected by the Village Panchayet by means of a cess within its area.	Revenue Secretary and Branch III of the Revenue Secretariat.	
8	Construction and maintenance of Saguvali kattes.	1. Prevention of the indiscriminate putting up of kattes across feeder channels.	.....			
		2. A record of the existing saguvali kattes to be prepared and each landholder called upon to register his katte, failing which the katte to be presumed as being unauthorisedly constructed.				
		3. Permission to put up new kattes to be refused, unless the lower riparian owners consent to such obstruction.	The objection is to the putting up of new kattes across defined channels. The raiyat should not be permitted to raise the height of the bund and a register must be maintained noting the height of the existing kattes.	The draft G. O. to be reconsidered with reference to the points noted in the previous column.	Revenue Secretary and Branch I of the Revenue Secretariat.	
9	Measures necessary to ensure greater promptitude in revenue collection and disposal of business.		More powers may be given to the Revenue officers to distrain moveable properties as in Bombay.	This is not necessary. The existing rules are sufficient.		

			There is a great delay in the disposal of papers and to fill up temporary vacancies hands will not often be available. A reserve of 10 per cent of the permanent establishment may be sanctioned to fill up temporary vacancies	The Amildars and the Sub-Division Officers are divested of their magisterial powers and they must see to the disposal of these papers by inspecting their own offices. Much depends upon the Deputy Commissioners and the instructions given by them.	Do
10	Reconstitution and reduction of Sub-Divisions.	Reducing the number of Sub-Divisions from 23 to 18.	The proposals of the Revenue Commissioner generally agreed to by the Deputy Commissioners.	The proposals of the Revenue Commissioner to be scrutinized and approved.	Do
11	Progress Report of Drinking Water Wells.	The progress being very slow, the question is, how to effect greater progress in this direction.	Rates fluctuate and it is very difficult to secure contractors unless higher rates are offered. The sides of wells collapse and great difficulty is felt in baling out water. Musto's plants are costly and the boring plants have not worked satisfactorily. If a District Engineer is sanctioned with the necessary staff under him, greater progress can be made. Some money may be usefully spent on experimental measures. A moving gang of woddars with a Mestri may be appointed and work carried out amani.	A sum of Rs. 5,000 may be placed at the disposal of each Deputy Commissioner for experimental purposes according to local necessity so as to decide upon some means of successfully sinking wells in the different localities.	Revenue Secretary and Branch III of the Revenue Secretariat.
12	Periodical subventions from Government to District Boards for the maintenance of the District Fund road.	.....	(*Vide* Subject No. XVI below.)	.....	
13	(*a*) Relieving the Sanitary Inspectors of all but their legitimate sanitary work.	.....	The work of the Sanitary Inspectors is not properly checked and so they must be made subordinates to the District Sanitary Officer of the District. The training given to the Sanitary Inspectors must be more practicable and must include a course of six months training under a Sanitary Officer or Sanitary Inspector in the mofussil.	This is not necessary. The draft rules proposed by the Sanitary Commissioner regarding the work, etc., of these officials, may be circulated among the Deputy Commissioners and their opinions called for.	Chief Secretary and Protection Branch.

Abstract of discussions at the meeting of Deputy Commissioners, etc.—*contd.*

Serial No.	Subject	Points discussed	Brief abstract of discussions	Decision arrived at, if any, or action proposed to be taken	Branch or Officer responsible	Remarks
13	(*b*) Placing Sanitary Inspectors and Deputy Inspectors of Vaccination under the control of Sanitary Officer.	.....	*Vide* (*a*) above.	....		
14	Divesting Amildars of Police powers.	.....	Amildars, as long as they continued to be Magistrates, knew criminal law and procedure. Being divested of these powers, they cannot be in a position to direct investigations properly. High paid Inspectors must be employed. The Amildars' interference is more and more proving to be detrimental to Police work. They must be divested of Police duties and powers. Per contra, the supervision of the Amildar, who is the administrative Head of the Taluk, over the work of the Police is desirable. It acts as a wholesome check and the moral influence of the Amildar's supervision cannot be ignored.	Under the rules, the separation of the judicial and executive functions is not complete. The Amildars and the Sub-Division Officers are still enjoying quasi-criminal powers. The powers overlap with those of the Special Magistrates. This matter should be examined. The general opinion that Amildars must continue to exercise Police powers, as at present, is accepted.	Chief Secretary and Protection Branch	
15	Making a separate cadre of Police Superintendents and giving them a local allowance of Rs. 50.		Officers drawing Rs. 350 and upwards are often transferred to the Revenue Department and officers in the Department do not wish to stay long. An inducement must be offered in the shape of a local allowance to these Police Superintendents.	This may be taken up in considering the re-organisation scheme.		
16	Re-organization of the Public Works Department.		Duties of the Public Works Department should be limited to works required for provincial roads, major tanks, construction of buildings costing Rs. 5,000 and upwards, the rest being transferred to the District Boards. The Government must pay 17½% on the cost of Government works done by the District Boards agency.	As the Deputy Commissioners want a separate agency, the Chief Engineer may draw up a note. The opinions of the Deputy Commissioners may be called for thereon.	Secretary, Public Works Department	

17	Repairs to Civil Buildings.	.....	The accumulated neglect is so great that certain buildings cannot be repaired with the year's grant calculated at 1½% on the outlay.	The recent rules may be tried for one year and if the amount sanctioned for a building is not sufficient, it may be allowed to be spent on another building at the discretion of the Deputy Commissioner.	Do
18	Annual repairs and maintenance to buildings.				
19	Revision of schedule rates.		The rates may be changed every three years.	The Chief Engineer may send a quarterly or halfy-early abstract of rates to the Deputy Commissioners and they may be permitted to fix their own rates.	Do
20	Organization and recruitment of labour.		.....	This question cannot be taken up during the present unsettled conditions of labour, etc.	Do
21	Repairs to travellers' bungalows to be carried out under the supervision of the Maramat Engineer.		This is being done but the grant offered is low.	The Chief Engineer may increase the grant, if it is considered necessary to do so.	Chief Engineer
22	Revision of the type plan of the combined office of the Sub-Registrars and Excise Officers.		Two rooms in excess are necessary over the accommodation provided in the plan.	This may be provided.	Do
23	Improvement of the moral and material condition of the depressed classes.		As there are about a lakh of Panchama families in the State a portion of the Amrut Mahal kavals surrendered to the Revenue Department may be reserved for them. The land so given may be made inalienable and money advanced to these people to purchase cattle through co-operative societies. A census agency may be created to find out the number of families and the lands available. To facilitate work, a certain extent of the surrendered kavals may be reserved and a *special agency* appointed to work out the scheme.	Fifty per cent of the lands surrendered may be reserved. The question of appointing a *special agency* for working out the general scheme may be considered.	Secretary, Education and Agriculture.

Abstract of discussions at the meeting of Deputy Commissioners, etc.—*contd.*

Serial No.	Subject	Points discussed	Brief abstract of discussions	Decision arrived at, if any, or action proposed to be taken	Branch or Officer responsible	Remarks.
24	Transfer of primary education to local bodies.	.. ...	The District Boards and the Education Board are not in favour of this transfer. A District Education Committee, which should *not* be a sub-committee of the District Board, may be appointed on the lines of the Education Council in Canada, having two representatives from the District Board and representatives from taluks. This Committee will frame its budget, appoint teachers, recognise new schools, and transfer and dismiss teachers appointed by it.	The District Education Committee may be a sub-committee of the District Board. Government will also nominate members to it and where the Committee and the District Board do not agree, Government will decide the question at issue.	Secretary, Education and Agriculture	
25	Considering the work of the various agencies for development of economic work.	1. Should the allotment for the economic work be provided in the budget of the Economic Conference. 2. Or whether a lumpsum grant should be provided as grant-in-aid in the District Board budget. 3. Should the present establishment be continued or reduced. 4. Continuance or otherwise of the District Economic Superintendents.	The grant may be paid to the Boards who will maintain separate accounts.	This may be done. As regards establishment two clerks are sufficient and the number may be reduced from 4 to 2.	Do	
26		.....	The District Economic Superintendent must be of the status of an Assistant Commissioner and must be paid by Government.		Do	

27	Agricultural and Industrial Co-operation.	.....	More Inspectors are necessary and as the pay offered is low suitable men for the posts are not available.	Noted	Do
28	Empowering Deputy Commissioners to sanction estimates for repairs of Muzrai Institutions up to Rs. 250.	.....	The Deputy Commissioners have powers to sanction estimates up to Rs. 1,000 and 500 in connection with Maramat and District Fund works. The limit of Rs. 50 with regard to Muzrai works is low.	To be considered ...	Muzrai Secretary
29	Power to pass excess expenditure up to a limit of Rs. 25.	.....	As the scale fixed cannot always be adhered to, this power may be granted.	In the case of minor institutions the Muzrai Superintendent is competent to sanction the excess. In the case of major institutions, the scale ought not to be changed without sanction of Government.	
30	Lease of temple lands.	.....	Government have ordered that no lease should extend beyond a period of fiev years and this works as a great hardship in the case of lessees of garden lands.	The Deputy Commissioners are given discretionary powers to extend the period of the lease. They may grant leases for 10 to 15 years at their discretion, if they are in the interest of the institutions	Do
31	Recognizing the status of the Amildar as Taluk Muzrai Officer and delegation to him of definite powers of disposal.	.....	Before the regulation, the Amildar was a Muzrai Officer and under the present regulation his position is not defined.	An amendment will be introduced in the new bill making the Amildar a Muzrai Officer.	Do

Statement giving briefly the opinions of the Dy. Comrs on the subject of transferring the Control over the Sany. Inspectors to the Dt Health Officers.

D.C. Bangalore.	D.C. Kolar.	D.C. Tumkur.	D.C. Mysore.	D.C. Hassan.	D.C. Shimoga.	D.C. Kadur.	D.C. Chitaldrug
States that the Sany. Inspr should work under the immediate subordination of Presidents of Dt Bds as before, the Dy. Comrs & President, Dt Bd, will exercise disciplinary control over them.	States that he generally agrees with the suggestions of the Sany. Comr in the matter of relieving Sany. Inspr of all but their legitimate Sany. work, but before giving effect to the proposals, the financial aspect of the question has to be considered.	States that the duties of Sany. Inspectors have been defined exhaustively in G.O. of 8.2.17 sanctioning the reorganisation of the P.H. Dept & that he does not see any necessity for their modification.	States that the existing arrangement may be continued till the Dt Bd can have its own Engineering staff.	States that Sany. Inspr employed by local bodies should have Sany. qualifications & attend also to the work mentioned by the Sany. Comr and be called Local Board Inspr, subject to the control of the Local Board.	States that until the local bodies employ a separate staff for the supervision of the works, it is not practicable to give effect to the Sany. Comr's proposal regarding the duties of Sany. Inspr.	States that the proposal cannot be accepted, as (1) it is opposed to the L.S.G. Scheme, (2) it is not conducive to good work on account of dual control & (3) it would be introducing a material change in the character of the duties of the Dt Health officers which are merely advisory.	States that there is nothing new in the Sany. Comr proposal & that the present sys is working well & may be continued.

G. R. S. III-2]

General and Revenue Secretariat. | San. File No. 76 of 1920.

Serial No.

36/ There are two points raised in the Sanitary Commissioner's note :—

(1) Relieving the Sanitary Inspectors of all but their legitimate work

(2) Transferring the disciplinary control over Sanitary Inspectors to the Dt Health officers.

37/ As regards (1), most of the Dy Commissioners are of opinion that the present system which has been worked well should continue. There seems to be much force in this contention for the following reasons :—

(1) If there are any places in which the Sanitary Inspectors are put to other than their legitimate work, such facts may be brought to the notice of the Dy Commissioners who are prepared to remedy such defects

(2) There is nothing to prevent the Health officer to chalk out his own lines of work for the Sanitary Inspectors & the local bodies would gladly give effect to his suggestions.

(3) Even the Dy Comr. Shimoga who is of opinion that the proposals of the Sanitary Commissioner would be

NOTE—Contn. sheet.

Serial No.

unexceptionable provided the local bodies are able to maintain a separate staff for supervising & executing works which do not come under the sanitary works proper, says that many of the works that are started are of a sanitary nature which come under the legitimate duties of the Sanitary Inspector.

(4) The Dy Comr, Mysore, says that if the Sanitary Inspectors are to be relieved of the charge of public works, there will be no agency to look after these works & the present arrangement may continue, till the Dt Board can have its own Engineering staff.

(5) The Dy Comr, Kolar, agrees with the proposals of the Sanitary Comr but before giving effect to them wants the financial effect of the question to be considered & by diverting the Sany. Inspectors of public works to the minor works, a separate agency will be necessary for carrying on these works. If the Sanitary Comr's proposals are to be given effect to, a society of the pay & allowances of the Sany Inspectors may be debited to the Sanitary Deptt.

(6) The present state of things would be

NOTE—Contn. sheet.

General and Revenue Secretariat. | Sanitation File No. 76 of 1920.

Serial No.

improved if the Dt Health Officers exercised proper Control over the work of Sanitary Inspectors & work the rules in the spirit in which they are framed.

38) As regards the second point all the Dy. Com^rs except Kolar are of opinion that the present system of the Sanitary Inspectors being under the Control of the municipalities might be continued for the following among other reasons:

(1) The agency that pays for the Sanitary Inspectors viz local bodies should Control them.

(2) The local bodies are as much interested in the sanitation of places as the Dt Health officers;

Sn b A. for orders with reference to paragraph 9 above.

688 29/1/21

(Rev. Secy.)

DCS 21/1/21.

39) On both the points the opinion of the Commissioner may perhaps be accepted at least for the present until such time as the Dist & Taluk BDs have a separate executive agency of

4329 1.2.21

(10) This question was discussed at the meeting of the Engineers last year & the conclusions of the meeting were that the Sanitary Inspectors should continue to work as hitherto under the orders of the Presidents of Municipalities and the District Boards — The Sanitary Inspectors are generally employed on purely sanitary work, but sometimes they are deputed to take measurements & check the progress of public works executed by the Taluq & District Boards & Municipalities. Such works generally consist of roads, drains, ~~and occasionally the construction of buildings~~ which are sanitary works falling within the purview of their sanitary duties. When the Sanitary Inspectors are deputed to supervise the construction of small

Councils and Cesses, the powers necessary are vested. There is not therefore necessity for insertion in the Complaint that they are employed in that behalf for the ordinary duties.

41) To place Sanitary Inspectors under the immediate control of the Health Officer will lead to much inconvenience. The employment of Health Officers of the Municipalities does not lend itself, because the Health Officers have to work in the case of the City Health Officer, their services will not be available at the disposal whenever they may be required. The Sanitary Inspectors are paid from the funds of the Local Boards and as such they will have to work under the orders of the respective Presidents of the Boards.

Enc 1

Bangalore 22nd March 1920

[redacted]

Dear Sir,

As desired in your D.O. No. G. 21518/Sany, dated the 18th instant, I submit a detailed note relating to the subjects of this Department to be discussed at the ensuing annual meeting of Deputy Commissioners.

PROTECTION BRANCH. 23 MAR 1920

Yours sincerely,

To

A.V.Ramanathan, Esq., B.A.,
Under-Secretary to Government,
Bangalore.

NOTE—Contn. sh-

N o t e.

Existing Conditions.

At present the Sanitary Inspector merely looks after the conservancy work which could as well be left to the conservancy maistry under his general supervision. The Sanitary Inspector is also a Work Inspector. Practically the whole of his time is taken up with supervision of works often wholly unconnected with sanitation and with the performance of duties pertaining to odds and ends in every branch ~~branch~~ of work in the taluk or in the Municipality. No attention is paid to internal sanitation on permises: regular house-to-house inspections are never done, and the Sanitary rules, so far as they relate to the abatement of nuisances, have practically remained a dead letter.

Future out-look.

2. The effect of this ~~lxtxrxx~~ want of organisation is two-fold. Firstly the Sanitation of town and villages has persistently lagged behind. Secondly, a vitiated outlook is engendered, whereby Sanitary Improvement is held synonymous with costly schemes- costly in the inception and - costly in maintenance - and in almost all cases much beyond the resources of the local body. Nothing is more fatal to sustained sanitary endeavour or more conducive to a - policy of waiting with folded hands for the time to come when costly Sanitary schemes will be the order of the day.

In what channel Sanitary activity should be directed.

3. Yet, almost every Sanitary Improvement which is required in an area can be secured through the wise employment of the existing staff and the existing rules. What I mean will be clear from a consideration of the facilities outlined below, provided in the Municipal Regulation.

Sec. 92 - 97. HOUSE CONSTRUCTION to be regulated by - licensing of buildings and presceribing details regarding the limits, design, ventilation and materials of the proposed building, the intended sanitation and costruction of the ~~xxxx~~ drains, sewers, privies, water-closets, and cesspools, the materials to be used in connection therwith and the location of the building with reference to any existing or projected streets.

Sec.106-117. Written notices to be issued for provision of SANITARY CONVENIENCES (i.e. privies,

sewers, drains, house-gullies, cesspools etc.) for alterations in them and for their maintenance in proper order at the cost of the owners of the property.

Sec. 119. Notices should be issued for dismantling RUINOUS OR DANGEROUS buildings.

Sec. 120. Notices to be issued in respect of cleansing, protecting and maintaining in good condition sources of WATER SUPPLY.

Sec.127-131 Notices to be issued for ABATEMENT OF NUISANCES in respect of deposits of dirt, dung, refuse and generally nuisances connected with stagnant sewage, non removal of filth, night-soil; Filthy and unwholesome state of buildings and surroundings;buildings by reason of their being deserted are a nuisance or are so unwholesome or unsightly as to be a source of discomfort to the neighbourhood;nuisance arising from tethering of cattle etc.

Sec.134 - 35 Notices in respect of pools, ditches, tank, pond or any waste or stagnant water.

Sec. 148. Abatement of OVERCROWDING in the interior of buildings.

Sec. 139-141. Regulation of MARKETS, slaughter house, meat-stall.

Sec. 142. Regulation of sale of articles of FOOD OR DRINK.

Sec. 144. Prevention of DANGEROUS DISEASES and the carrying out of the duties imposed by the rules.

Sec. 151 Prevention of nuisances from certain TRADES and OCCUPATIONS.

4. In the case of villages, the administration of the rules is vested in the Deputy Commissioner who may issue written orders (in some cases to the owners of propety and in others to the Sanitary agency) for the proper conservancy of the village, regulation of buildings, prevention of excavations etc.

5. The Sanitary Inspector should be held primarily responsible

for all nuisances in premises and, generally within the area in his jurisidication. He is the Executive Officer of the local Sanitary authority for abatement of nuisances in the area. It should be the duty of every Sanitary Inspector to make systematic inspection of the area in his charge, with a view to ascertain what nuisances exist calling for abatement, under the powers of Municipal - Regulation (or the village Sanitation Regulation) and to enforce the provisions of such Regulation for the purpose of abating the nuisance and otherwise to put in force the powers vested in the local authority, relating to Public Health, so as to secure the Sanitary condition of all premises within the area.

What a Sanitary Inspector ought to be and do.

6. It is neither necessary nor disirable that, in every case of a nuisance detected or brought under the cognizance of the Sanitary Inspector, legal proceedings should be threatened or invoked. If a formal intimation of the nuisance is sent to the person responsible for its abatement, the works specified in the notice are generally carried out, thus avoiding unpleasantness with owner's of property and saving time. But only with the class of persons that will not move unless absolutely compelled, it will be necessary that the Sanitary Inspector should deal promptly and decisively, reporting such cases to the President or the Amildar - as the case may be, asking for his instruction and authority to institute legal proceedings without delay.

7. It will be evident how essential it is that there should be a central direction responsible to unify the Sanitary work in Districts on the above lines. It is true that Government Order No. 5113-63 San. 86-13-35 dated the 8th February 1917 prohibits the imposition on Sanitary Inspectors of work other than that pertaining to Sanitation But a mere prohibition of the kind cannot amount to an actual shaping of the work nor its performance in an efficient manner. For this purpose the District Health Officer should hold the Sanitary Inspectors responsible for performing their duties on definite, approved lines and

Disciplinary control over - Sanitary Inspectors.

should exercise the same powers of disciplinary control over them as does the Health Officer of, say the Bangalore City over the Sanitary Inspectors within his jurisdiction Such an arrangement would present no difficulty, as the Deputy Commissioner is the final controlling authority in the District in the Sanitary Department and may delegate powers to the Health Officer who is his Assistant, under Government order No. 94-8 San. 114-14-4 dated the 5th July 1917. All appointments, transfers, grant of increments etc, and other powers of disciplinary control over Sanitary Inspectors should be vested in the Health Officers subject to the general or special orders of the Deputy Commissioner This involves no undue centralisation nor a withdrawal of the control hitherto exercised by the local officer for purposes of routine work. At the same time, it will be a most effective safe-guard against the degeneration of the Sanitary Inspectors into mere costly encumberances in the scheme of District administration.

Vaccination establishment and conclusion.

8. In regard to Deputy Inspectors of Vaccination and Vaccinators to the Health Officers in some Districts exercise the necessary powers of control under the orders of the Deputy Commissioner. What is necessary is the adoption of the principle uniformly in all Districts and its extension to the case of Sanitary Inspectors.

Offg. Sanitary Commissioner.

Sir,

In continuation of this office letter dated 19th Instant, I have the honour to submit herewith a note on the marginally noted subjects to be discussed at the meeting of officers at Bangalore.

1. Relieving the Sanitary Inspectors of all but their legitimate sanitary work.
2. Placing the Sanitary Inspectors, Deputy Inspectors of Vaccination and Vaccinaters entirely under the control of the full time District Sanitary Officer.
3. Divesting Amildars of Police Powers.
4. Repairs to civil buildings.
5. Annual repairs and maintenance to civil buildings.
6. Repairs to travellers' Bungalows to be carried out under the Paramat Branch of the Deputy Commissioner.
7. Empowering Deputy Commissioners to sanction estimates for repairs of Muzrai Institutions up to a limit of Rs.250/-.

Dated 26th March 1920.

Despatched

Received

General No. H.C.404(Rev)19-20.
No.

Enclosure No. One.

Submits a note on certain subjects.

Agenda for the 30th March 1920.

3 (a). Relieving the Sanitary Inspectors of all but their legitimate sanitary work.

If a separate combined agency in the Maramat branch for the supervision of Local Fund, Maramat, Muzrai and Malnad Improvement works is sanctioned as contemplated in subject No. 1 (b) on the agenda for the 29th March, the sanitary inspectors may be made to confine their attention soley to sanitary work.

3 (b). Placing the Sanitary Inspectors, Deputy Inspectors of Vaccination and Vaccinators entirely under the fulltime District Sanitary Officers.

I am not in favour of this proposal. It is desirable that the work of the sanitary inspectors and of vaccinators should be supervised by a local officer. They will also be able to do better work if backed up by the support of such officers. As it is, for lack of local supervision and control the work of vaccination is very unsatisfactory.

4. Divesting Amildars of police powers.

It is believed that the object of investing Amildars with police powers is that they may exercise some healthy control over the work of the Police Department. If Amildars are divested of this power I am almost certain that the tone and morale of the local police will not change for the better. The existing system is peculiar to Mysore and in the opinion of many is an improvement on British Indian arrangements. A change is ~~the~~ les

	desirable now because there is not even a magistrate in each taluk head-quarter.
(7) Repairs to civil buildings.	Special repairs to civil buildings may be carried out through the Public Works Department.
(8) Annual repairs and maintenance to civil buildings.	As regards civil buildings in Districts, these may with advantage be entrusted to Deputy Commissioners irrespective of the total cost of such annual maintenance works; i.e. whether it exceeds Rs.250 or not.

Agenda for the 31st March 1920.

(6) Empowering Deputy Commissioners to sanction estimates for repairs of Muzrai Institutions up to a limit of Rs.250 instead of Rs.50 at present.	This is quite desirable as it will obviate much avoidable delay and correspondence in sanctioning estimates The limit of sanctioning muzrai works may even be raised to Rs.500/- as in the case of District Fund works.
(11) The repairs to the Travellers' Bungalows being now entrusted to the Revenue Depart-ment as per Government Order No. G.H.198-14-30 dated 24th June 1918, it is desirable that the same should be carried out under the Maramat Branch of the Deputy Commissioner.	This may be done.

Deputy Commissioner,
Shimoga District.

SIR,

Adverting to your letter No.G.850-7 San. dated 12th July 1920 calling for my opinion on the Sanitary Commissioner's note on the question of relieving Sanitary Inspectors of all but their legitimate Sanitary work, I have the honour to state as follows:-

There is nothing new in the Sanitary Commissioner's proposal beyond the usual cry for pelf and power.

The Sanitary Inspector who is minor Executive Officer under the control of the Municipal Council or the District Board has no independent power to do any thing. His business is to report deffects and abide by the orders of superior officers. He has to execute certain works such as sinking wells, construction of drains, etc., which have every bearing on sanitation. The Local Executive Officer has to solely look to the Sanitary Officer for help in this direction.

The District Sanitary Officer can not be given full powers over the Sanitary Inspector who is paid by the Local bodies who reserve to themselves such power. The Amildar or President of Local Board under whose direct orders the Sanitary Inspector works, cannot be divested of his control and the same transferred to the District Sanitary Officer,

SIR,

Adverting to your letter No. G.850-7 dated the 12th July 192(calling for my opinion on the Sanitary Commissioner's note on the subject of duties of Sanitary Inspectors, I have the honour to stat that in the Government order of the 8th February 1917, the duties have been defined exhaustively and I do not see any necessity for their modification. In rule 7, it is provided that in Municipal and Taluk Boards where separate provision does not exist for minor works, it should be the duites of these Inspectors to supervise suc works subject to the condition that sanitary works should generall; have precedence over others. The Sanitary Inspector is virtually the executive assistant to the Amildar in Local Board matters, and as such it should be his duty to attend to works of that Department which generally pertain to the improvement of Sanitation. In some cases it is true that these will be entrusted with the supervision of construction of minnr muzrai and school buildings cattle-pounds, repairs to police stations, Such works will be very few not exceeding two or three per annum in the majority of Taluks. Moreover these works can not certainly encroach upon their other work as they can attend to them during the course of their tours. Owing to the small number of such other works, it is neither possible nor necessary to secure the services of separate overseers for these minor works not costing more than a few hundreds of rupees. In Municipalities, maistries are being appointed and when there are many well works in a taluk, separate

Furnishing opinion on the subject of the duties of Sanitary Inspectors.

---

separate well maistries are also appointed to be in charge of special works under the supervision of Sanitary Inspectors.

2. Orders have been issued to all the Amildars and Deputy Amildars and Taluk Boards not to employ sanitary Inpsectrs on any work unconcerned with the above.

3. With regard to the disciplinary control over these Inspectors I may state that it is the Amildars and Deputy Amildars that must be made directly responsible for the work of the Sanitary Inspectors. The District Sanitary Officer as the technical assistant to the Deputy Commissioner can chalk out programmes and see that all orders issued from time to time are properly carried out. He will send his suggestions for improvement to the sanction of the President of the District or the Municipal Board. Dairies of the Sanitary Inspectors will be submitted to him, he will check them, issue prompt orders and bring to the notice of the President any good or bad work of the Sanitary Inspectors for suitable notice. The vaccination Establishment may likewise be dealt with. In the matter of promotion and punishment of Sanitary Inspectors and Vaccinators, the District Sanitary Officer will have a definite voice.

4. In some Taluks the Sub-Division Officers are Presidents of Taluk Boards and the Vice-presidents are elected non-official gentlemen. In such places it is desirable that the sanitary Inspectors should work directly under the Amildars subject to the control of the Taluk Boards so that the Amildars may not discliam their responsibility as Chief Executive Officers of the Taluks.

I have the honour to be,

Deputy Commissioner,
Shimoga District, Shimoga.

To,
C. S. Balasundaram Iyer, Esquire, B.A.,
Chief Secretary to the Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir,

With reference to your letter No G. 850-7 San dated the 12th July 1920 forwarding for opinion, the note of the Sanitary Commissio on the question of relieving Sanitary Inspectors of all but their legitimate Sanitary work, I have the honour to state that the propos of the Sanitary Commissioner would be unexceptionable provided the Local Bodies are able to maintain a separate staff for supervising and executing works which do not come under sanitary works proper. Some Municipalities possessing resources have appointed separate overseeers for the execution of works other then Sanitary works. In Municipalities whose funds do not permit the employment of a separate staff either for sanitary or other works the sanitary Inspector employed by the Taluk Boards helps in the execution and supervision of all works.

2. As regards arrangements in rural areas it is understood that the question of employing a separate staff for the execution of public works relating to District Boards has been under consideration of the Government. Till this question is finally settled the present arrangement of sanitary Inspectors having to attend to works other then sanitary works will have to be continued as they are ~~at~~ present

the only executive staff employed by the Local Bodies. Further many of the works that are started are of a sanitary nature which come under the legitimate duties of sanitary Inspectors. Since the prospect of sanitary Inspectors have been improved, it is expected that they should turn out better work and do the additional duty as well more efficiently.

3. I am therefore of opinion that until the Local Bodies employ a separate staff for the supervision of other works it is not practicabl to give effect to the proposal of the Sanitary Commissioner regarding the duties of sanitary Inspectors. It is necessary that they should continue to work under the direct orders of the presidents of Taluk Boards who are in charge of works and the District Health Officer will continue to give his suggestions regarding the employment of the staff more usefully. It is necessary that the programme of work for the Sanitary Inspectors will have to be fixed by the President of the Taluk Board who will be conversent with all the works on hand in the Taluk and furnish a copy of it to the District Health Officer for his information.

I have the honour to be,

Sir,

Your most obedient servant,

From

Md.Zahiruddin Mecci,Esquire,B.A.,
Deputy Commissioner,
Kolar District,
K o l a r.

To

C.S.Balasundarama Iyer,Esquire,B.A.,
Chief Secretary to the Government
of Mysore,Bangalore.

Sir,

With reference to your letter No.850-7/San. dated the 12th July 1920, calling for opinion on the Sanitary ---- Commissioner's note in the matter of relieving the Sanitary Inspector of all but their legitimate sanitary work, I have the honor to state that I generally agree with the suggestions of the Sanitary Commis--sioner but before giving effect to the proposals in their entirety, the financial aspect of the question has to be taken into considera--tion.

According to the present arrangement, these Sani--tary Inspectors are placed in charge of Minor Public Works carried out in the Civil Department, in addition to their sanitation work, and by divesting them of the work-charge, there will arise the neces-sity of employing a separate Agency for the execution of these works by the Local Bodies.

2. According to Government Order No.R. 16474-95/ Ml.184-16-23 dated the 24th June 1919, the prospects of these Sanita Inspectors were improved,with liberal scale of pay and allowances, th minimum and maximum being fixed at Rs.30/- and 80/- against the origi scale of Rs.30/- and Rs.40/- respectively with an enhanced horse allowa of Rs.20/- each.

Thus

Thus the total cost of this establishment will now work out at double the original cost before re-organisation as shown below:----

	Per Annum.
Original cost. 11 Sanitary Inspectors at Rs. 40/- plus 10/- each per month	6,600/-
Revised scale. 11 Sanitary Inspectors at Rs. 80/-plus 20/- each per month.....	13,200/-.
Extra cost Rs.	6,600/- per year

The proposal of Government for providing each Sanitary ---- Inspector with a peon on Rs. 7/-each, which was approved by the District Board involves a further additional cost of Rs. 924/-.

3. The District Board have already been paying establishment and Tools and Plants Charges at 18% of the outlay incurred on public works carried out by the Public Works Department which cost the Board on an average, Rs. 10,000/- a year.

4. If in addition to the above charges detailed in paras 2 and 3, a separate agency for the execution of public works which were hitherto attended to by the Sanitary Inspectors is employed, there will be a heavy financial strain on the meagre finances of the Board.

The average cost of public works carried out by the Board's Agency in a year amounts to Rs. 20,000/- which will require at least the services of a small staff of Work Inspectors or Mais--tries, one for each Taluk on a salary of Rs. 25/- plus 10/- horse allowance and involve an annual extra recurring expenditure of Rs. 4,620/- as shown in the margin.

11 Maistries at Rs. 25/- plus 10/-each for 12 months, equals Rs. 4620/-.

5. To avoid this extra expenditure to the Board, I would propose that, for giving effect to the suggestions of the Sani--tary Commissioner in their entirety immediately and realise

the

the object in view , a moiety of the pay and allowances of these Sanitary Inspectors may be debited to the Funds of the Sanitary Department, the other moiety being debited to District Funds. The savings thus effected by the arrangement , will enable the Board to entertain a separate staff for the supervision and ---- execution of the public works hitherto done by these Sanitary Inspectors and will also relieve the extra financial strain on the Local Bodies.

6. If,for any reason this proposal is not found feasible, the only alternative will be for the Government to waive the establishment and Tools charges referred to in para 3 supra, in favour of the Board, for the present until the separate ----- Engineering establishment for which proposals have already been submitted to Government, is sanctioned.

7. Similar difficulties will also arise in the case of the Municipalities in the District whose limited resources do not admit of entertaining separate staff for carrying out the works executed by the Municipal Agency.

There are 11 Municipalities in the District, of which six are Town Municipal Councils and the rest, Minor Municipalities.

Of the six Town Municipalities only four ~~of them~~, Viz., Kolar, Bowringpet, Chintamani and Chikkaballapur have been maintaining Sanitary Inspectors independently out of their funds, while Sidlaghatta and Mulbagal have no such Inspectors.

In the Sidlaghatta Municipality the services of the Sanitary Inspector were recently dispensed with and he was replaced by a Maistry on Rs. 15/- a month according to para 6 of Government Order No. 16474-95/Ml. 184-16-23 dated the 24th June 1919 as the annual income of the Municipality was less than Rs. 7000/- and did not admit of maintaining a Sanitary Inspector.

8. As regards the disciplinary control over the Sanitary Inspectors and Vaccination establishment, I concur with the views of the Sanitary Commissioner that the patronage re: ----

appointments

appointments, transfers,etc., of the Inspectors and other powers of disciplinary control should be vested in the Health Officers subject to the general or special orders of the Deputy Commissioner. The question of delegation of such powers will as hithertofore rest with the Deputy Commissioner as it is the case with other Departments under his control.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Kolar District.

x x x x

Subject No.7.

Read Chief Secretary's letter No.850-7/Sany dated 12th July 1920 forwarding for opinion the Sanitary Commissioner note on the question of relieving Sanitary Inspectors of all bu their legitimate duties (deferred at the last meeting).

Read also the opinions received from the Presiden of the Taluk Boards of Bangalore, Anekal, Chennapatna, Nelamangla, Hoskote, Devanahalli, Magdi and Dodballapur.

The Honorary Vice President of the Bangalore Distr Board was of opinion that the present system should continue, and that the Sanitary Inspectors should for the present attend to the supervision of works which are very little and also work of Sanitary nature, till a separate Engineering Establishment is sanctioned for the District Board. If they are devested of this now alone, the Board will have to employ an establishment consis ing of a Sub-Overseer etc, costing nearly Rs 6000/- a year. In al matters relating to Sanitation, the District Sanitary Officer will be consulted, and his instructions will be communicated to the Talukes for strict adoption.

Resolution:- The Sanitary Inspectors should work under the immediate Subordination of Presidents of Taluk Boards, and as before, the Deputy Commissioner and President, District Board, as final authority will exercise disciplinary control over them. Th tour programme, diary and other papers relating to the work of t Sanitary Inspectors and their leave, transfer and increments may pass through the District Sanitary Officer paractically as Assi stant or Secretary to the Deputy Commissioner in Sanitary matte

From

P.F.Bowring, Esquire, J.P.,

Deputy Commissioner, Mysore District

To

C.S.Balasundaram Iyer, Esquire, B.A.,

Chief Secretary to the Government of

H.H. the Maharaja of Mysore, Bangalore

Sir,

With reference to your letter No.G.850-7/San dated the 12th July 1920 forwarding for my opinion a copy of the Sanitary Commissio er's note on the question of relieving Sanitary Inspectors of all bu their legitimate sanitary work, I have the honor to state that Gover ment have not passed orders in the matter of maintaining a separate District Fund Engineering Staff for the purpose of supervising the - execution of District Fund Works. If the Sanitary Inspectors are now to be relieved of the charge of public works there will be no other agency to look after these works with the result that progress in the execution of public works will suffer very much for want of super- vision. I am therefore of opinion that the existing arranegement may continue till the District Board can have its own Engineering Staff.

2 As regards the functions proposed to be assigned to Sani- tary Inspectors in para 2 and 3 of the Sanitary Commissioner's note in respect of municipal areas, I have the honor to state that the Minor Municipal Councils have all been exempted from the operation of the several sections of the Municipal Regulation quoted in the said paras of the note. Moreover all the Municipal Councils excepting the marginally noted ones have no sanitary Inspectors for paucity of fun

Received 8 DEC 1920

General No. D2 Dis 332 L.B

No. 20-21

Enclosure No.

Submits opinion re relieving
Sanitary Inspectors of all bus
their legitimate Sanitary work

and their income does not come up to Rs.7000 as required in Government Order No.R16474-95/Ml.184-16823 dated the 24th June 1919 to enable them to appoint their own Sanitary Inspectors. The Sanitary Inspectors belonging to the District Board are not required to look after the works in Municipalities as the latter are not contributing anything towards their cost(Vide Government Order No- R 3190-B, Dt 28-8-18 Mul 176-17-35 How the procedure as detailed in paras 2and 3 of the Sanitary Commissioner's Note can be followed, can only be decided after rules are separately issued by the Government in lieu of the several sections of the Municipal Regulation from which the Councils are now exempted

3. The Sanitary Commissioner has proposed that all appointments transfers, grant of increments etc,, and other powers of disciplinary control over Sanitary Inspectors should be vested in the Health Officer. This is not an aggeeable proposal and the matter has been disposed of more than once by Government in their orders marginally noted ---

No.3517-27Ml430-04-21dated 3-11-1906	orders directing that the appointments of the
No.1586-97Sanity45-09-2 dated 12-8-1909	

Sanitary Inspectors should vest in the Presidents of the Local Bodies concerned for reasons stated in them. The cost of these Inspectors are borne by the Local Bodies concerned and it is but reasonable that their disciplinary control should vest in these bodies. The Health Department is only an advisory body as directed in Government Order No.855 -67 San 252-07-2 dated the 25th July 1908 and the District Medical Officer cannot issue any executive orders to the Amildars(Vide Government Order No.3390-8 San 67-09-4 dated the 8th October 1909) The Taluk Amildars are made primarily resposible for adopting all necessary precautionary measures during the outbreaks of Cholera Plague, Influenza and other epidemic diseases and the Sanitary Department cannot do anything without the help of the Amildar. The following quotation is added ~~below~~ for the information of Government:---

"The function of an expert Department should be directed to direction, inspection and advise; it should not administer, though it may always complain to higher authority if the advise is disregarded"

In these circumstances I have the honor to state that disciplinary control over the Sanitary Inspectors may continue to vest in the Local Bodies concerned as heretofore.

4 As regards Vaccination Establishment, the entire disciplinary control has been transferred to the District Board and its President and the Government Orders on the subject are quite clear and change is necessary.

I have the honor to be

Sir

Your most obedient servant

Deputy Commissioner,

Mysore District

Chief Secretary to the Government of

His Highness the Maharaja of Mysore,

B a n g a l o r e.

Sir,

With reference to your letter No: G.850-7/San. dated 12th July 1920 on the question of relieving Sanitary Inspectors of all but their legitimate sanitary work, I have the honour to state that the subject was placed before the District Board of Hassan at their meeting of the 29th and 30th September 1920. In view of the fact that the pay and the prospects of these Sanitary Inspectors have been recently improved in consideration of the work to be turned out by them under the District Board not only in respect of Sanitary matters but also in respect of Public works executed under District Funds, the Board being of opinion that the Inspectors cannot be employed solely for sanitary works hereafter, have resolved as follows:-

" Sanitary Inspectors employed by Local Bodies should have sanitary qualifications and attend also to the work mentioned by the Sanitary Commissioner and be called Local Board Sanitary Inspectors, subject to the control of the Local Board."

2. Copy of the resolution is herewith forwarded for reference

35. Mr. M. Chowdaiya. 36. Mr. H. Narana[illegible]

1. Letter from the District Inspector of Education and telegram from Mr. M. Chowdaiya, explaining their absence.

Resolution.—Recorded.

2. Proceedings of the last meeting.

Resolution.—Recorded.

3. Report on the Administration of District F[illegible]

Resolution.—The draft report is approved.

4. (a) Chief Secretary's letter G. 850-7, dated 12th July 1920, forwarding Sanitary Commissioner's note on the question of relieving Sanitary Inspectors of all but their legitimate work for opinion.

Resolution.—Sanitary Inspectors employed by local bodies should have sanitary qualifications and attend also to the work mentioned by the Sanitary Commissioner and be called Local Board Inspectors subject to the control of the Local Board.

(b) Revenue Secretary's letter No. R. 2736-42—L. B. 12-19-3, dated the 23rd August 1920, requiring the District Boards' opinion about giving the services of a Peon to each Sanitary Inspector.

Resolution.—A peon on Rs. 7+5 per month may be given to each Sanitary Inspector.

5. Government Order No. G. 6792-5—Med. 38-18-14, dated 16th September 1919, calling for proposals about opening regular dispensaries under Sub-Assistant Surgeons at Mallipatna and Kundur.

Resolution.—The District Board is unable to find funds.

6. Chief Secretary's letter No. G. 6433-40—San. 6-19-9, dated 20th September 1920, forwarding Type Designs regarding construction of Rat Proof Granaries in important grain centres.

Resolution.—A Sub-Committee is appointed consisting of (1) Vice-President of the District Board (Convenor), (2) the District Health Officer, (3) the District Medical Officer, (4) Mr. S. Venkateshiah and (5) Mr. S. Shamanna, Sub-Division Officer, Hole-Narsipur Sub-Division, to suggest suitable Bye-laws.

7. Government Order No. R. 2035-40—L. B. 100-19-20, dated 12th August 1920, sanctioning the District Board Budget for 1920-21.

Resolution.—Recorded.

8. Senior Surgeon's further letter No. G. C. 83, dated 16th August 1920, about the establishment of a Maternity at Saklespur and the development of the Female Dispensary at Hassan into a Maternity.

Resolution.—A copy of the Senior Surgeon's letter may be sent to District Malnad Improvement Committee with a request for help in connection with the building also. The resolutions of the Saklespur and Hassan Municipal Councils will be awaited.

9. Letter No. 705, dated 3rd September 1920, from the Superintendent, Veterinary Department, forwarding a circular issued by him to Veterinary Inspectors regarding their work outside headquarters and fixing the itinerary period at not less than 10 days in the month.

Resolution.—The programme should be published and the Veterinary Inspectors should adhere to their programme. The circular instructions in question may be communicated to the Amildars for publication.

10. Notice received through the Secretariat about the annual Cattle Fair at Kulgunda being held hereafter after the Shashti Festival of Subramanya (18th to 31st December 1920).

Resolution.—Recorded.

11. Government Order No. R. 1600-18, dated 31st July 1920, directing that in view of the heavy expenses involved, the scheme of providing sign boards near villages on all roads both Provincial and District Funds in the State be dropped.

Resolution.—Recorded.

Railway Secretary's letter No. 293, dated 9th August 1920, to the Agent, M. & S. M. Railway, Madras, recommending the providing of more waiting accommodation at Arsikere.

Resolution.—Recorded.

13. Railway Secretary's letter No. 438, dated 21st August 1920, stating that the question of opening of a flag station at Hole-Narsipur is receiving attention and a reply will be sent shortly.

(2) Letter F. 248—596, dated 21st September 1920, from the Executive Engineer, Mysore Railways, Mysore Division, intimating that Government have decided to open a flag station between two gate lodges of Hassan and Hole-Narsipur and Channarayapatna and Hole-Narsipur roads on the Mysore-Arsikere Railway.

Resolution.—Recorded.

14. Revenue Secretary's letter No. R. 2885—L B. 35-20-2, dated 26th August 1920, informing that under Rule 5 of the rules issued under Government Notification R. 5251, dated 8th October 1918, Village Panchayets are not competent by themselves to open vaidyasalas in the villages.

Resolution.—Recorded.

15. Government Order No. G. 5489-501—San. 87-18-9, dated 8th September 1920, appointing Mr. Abbaskhon of Bangalore and Mr. Venkataramaiya of Tumkur as non-official members of the Central Sanitary Board.

Resolution.—Recorded.

16. Hassan Sub-Division Officer's R. O. C. No. 550—19, dated 19th February 1920, recommending that the old Taluk Cutcherry Buildings at Harnahalli may be taken under the management of the District Board.

Resolution.—The question will be referred to the Executive Engineer for opinion as to the suitability of the place for a musafirkhana and the probable cost of converting the existing building to a musafirkhana.

17. Hassan Taluk Board President's Yadi No. 1433, dated 6th April 1920, recommending the establishment of a cattle pound at Agile in the building built by Patel Rangegowda.

Resolution.—The District Board are not in favour of the proposal.

18. Manjarabad Taluk Board President's Yadi No. 876, dated 22nd April 1920, recommending the establishment of a cattle pound at Hosur village, Yeslur Hobli.

Resolution.—If the ownership of the building is transferred to the Board with a mutchalika, the cattle pound may be started.

19. Manjarabad Taluk Board President's Yadi No. 877, dated 22nd April 1920, recommending the cattle pound at Yadakere village.

Resolution.—The cattle pound may be tried temporarily for a year. If the pound should eventually be made permanent, the ownership of the building will have to be transferred to the Board by a mutchalika.

20. Arkalgud Taluk Board President's report No. 13—L. F., dated 23rd July 1920, recommending an increase in the number of sweepers to the Konanur Village Panchayet.

Resolution.—This may be done.

21. Hole-Narsipur Town Municipal President's No 10, dated 1st August 1920, stating that the cart-stand at Hole-Narsipur may be considered as municipal property, and as such allowed to be managed by that body.

Resolution.—The District Sanitary Officer's opinion will be called for as regards the suitability of the land for building.

22. Saklespur Sub-Division Assistant Commissioner's Yadi No. N. Dis. 406-18—B., dated 3rd August 1920, recommending that the newly started Santhe at Hagare may be made permanent as it is very convenient for the public.

Resolution.—This may be recommended. Necessary steps may be taken to collect fees at the Shandy.

SECOND DAY'S PROCEEDINGS.

30TH SEPTEMBER 1920.

23. Manjarabad Taluk Board President's Yadi No. 50, dated 23rd August 1920, stating that a boat may be supplied to the Harihalli Ferry.

Resolution.—The Executive Engineer will be requested to intimate whether the place is safe for the running of a boat and whether the opening of a ferry is desirable there.

24. Chief Secretary's letter No. G. 23191-3—Med. 6-19-11, dated 8th April 1920, regarding the grant of house rent allowance to compounders employed in Malnad and replies received from the local bodies.

Resolution.—The District Board are prepared to pay their quota of the cost according to the statement already sent up.

25. Letter No. 3207-14—A. & E., dated 24th September 1920, forwarding for opinion extract of the *Resolution* of the Mysore Economic Conference, during the Birthday Session in the matter of organising cattle fairs throughout the State, so that the spread of the epidemic cattle disease may be controlled and the fairs may be better utilised to encourage the breeding of better stock

Resolution.—The question may be referred to the Agricultural Sub-Committee for report and the Veterinary Inspector of Hassan may be taken as a co-opted Member of the Sub-Committee for this purpose.

26. Hassan District Deputy Commissioner's Docket No. 5-20—H. C., dated 28th September 1920, requesting that the Dasara subject regarding the opening of a Veterinary Dispensary at Arkalgud, may be placed before the District Board for consideration and disposal

Resolution.—This may be considered along with proposals from other taluks.

27. The Secretary, Economic Branch, has been given two peons as orderlies for himself and one peon for office. Similarly, the Vice-President, District Board, may be allowed two orderlies for himself and one peon for office

The non-official Vice-President of each Taluk Board may be allowed one orderly for himself and one peon for office.

Resolution.—Referred to the Finance Committee for report.

28. Manjarabad Taluk President's Yadi No. 381, dated 17th June 1920, forwarding the Boards's *Resolution* stating that vaccination may be made compulsory at Yeslur.

Resolution.—This may be recommended for three years.

29. Arkalgud Taluk Board President's report No. 81, dated 21st September 1920, in the matter of apportioning the shop tax and cattle fees realised in the Ramanathapur Cattle Show, to the credit of Sree Subramanya Swamy and the Village Panchayet fund respectively.

Resolution.—The cattle show will be run by the District Board, but the surplus may be apportioned as proposed. The amount intended for the temple will be invested by Government on behalf of the temple.

30. Hole-Narsipur Town Municipal Council President's Yadi No. 25, dated 24th August 1920, forwarding copy of *Resolution* of the Council in the matter of providing accommodation to locate a Female Dispensary at Hole-Narsipur on a monthly rent of Rs. 10 or 12.

Resolution.—A recommendation may now be made.

31. Government Order No. 1033-50—Muz. 340-19-4, dated 14th September 1920, received with Deputy Commissioner's No. C. 98-20—H. C. dated 22nd September 1920, according general permission to the grant of loans from funds at credit of Muzrai Institutions to local bodies under certain conditions subject in each case to sanction of Government in the Muzrai and Financial Departments.

Resolution.—Recorded.

32. Government Order No. 4085—Ml. 87-20-23, dated 21st September 1920, approving Local Boards investing their surplus permanent balance in the 6½% Government Loan of 1920.

Resolution.—Sixteen Thousand Rupees may be invested in the State Loan of 1920.

33. Government Order No. 4029-36—L. B. 39-20-7, dated 21st September 1920, stating that suitable buildings for locating Ayurvedic Institutions, etc., is a matter for consideration and initiative by the local bodies concerned.

Resolution.—Recorded.

34. Government Order No. R. 4471-2—L. B. 39-20-11, dated 28th September 1920, sanctioning the opening of a Vaidyasala at Javagal.

Resolution.—Recorded.

35. Hole-Narsipur Amildar's report No. 147, dated 30th August 1920, in regard to adjustment of the advance of Rs. 15 granted to L. F. Clerk, Sreekantiah, when he was transferred from Chikmagalur (Rs. 5 deducted in Chikmagalur (District Office) as per statement of Sreekantiah.) The balance of Rs. 10 deducted from his pay in Hole-Narsipur Taluk Board Office but not credited to the account of the District Board Office, Kadur, will have now to be credited. The deduction was made two years ago. Hence Board's sanction for payment is necessary.

Resolution.—Sanctioned

36. Estimate for constructing stables for the use of 1st Class Musafirkhana opposite he Civil Hospital at Hassan. (Amount of estimate, *viz.*, Rs. 1,060 is provided in the udget for 1920-21.)

Resolution.—This may be recommended.

37. Estimate for repairs to Banawara Musafirkhana.

Resolution.—The estimate for Rs. 500 is approved. Necessary action may be taken to reappropriate the amount required.

38. Repairs to the Traveller's Bungalow at Hiresave.

Resolution.—The estimate is approved, and an allotment of Rs. 1,000 is made from this year's budget under 18 Civil works, Channarayapatna 9 Repairing Musafirkhanas and Travellers' Bungalows.

DISTRICT CONFERENCE SUBJECTS.

39. List of Roads, Bridges, Veterinary Hospitals, Musafirkhana, etc., required.

Resolution.—The works committee will be requested to prepare a list in the order of urgency.

40. *The Gorur Bridge.*—Executive Engineer's Memo, No. 281, dated 29th September 1920, asking for the opinion of the Board, in the matter of bearing the moiety of the extra cost involved by revising the estimate.

Resolution.—The Board is prepared to bear a moiety of the cost of the Gorur Bridge up to a maximum of one Lakh.

PART II.

ECONOMIC DEVELOPMENT SUBJECTS.

1. Government Order No. 1250-60—E. C. 30-20-1, dated 3rd August 1920, directing hat the pay of the clerks appointed for economic development work in the taluk offices who should also attend to the village improvement work is fixed at Rs. 20 per mensem.

Resolution.—Recorded.

2. Economic Development Board Secretary's Official Memorandum No. 325-6, dated 19th August 1920, sanctioning the following items of expenditure approved by the District Board from the sum of Rs. 1,000 allotted for small experiments, *viz.*—

(*a*) Grant of Rs. 50 towards the publication of the Kannada edition of the Journals of the Mysore Agricultural and Experimental Union.

(*b*) Grant of Rs. 120 at Rs. 10 a month for Agricultural Scholarship in Hebbal Training School.

(*c*) Grant of Rs. 30 towards the pay of a teacher engaged in teaching rattan work at Belur for three months.

(*d*) Half the estimated cost towards a Weaving School at Belur (about Rs. 80) for six months.

Resolution.— Recorded.

3. Government Order No. 1820-29—I. & C. 22-19-20, dated 18th August 1920, regarding the appointment of Superintendents and District Organizers for the development of Home Industries in the districts.

Resolution.—Recorded.

Office of the Deputy Commissioner,

Kadur District,

Dated Chikmagalur, 15th January 1921. No. 15169

From,

K. Mylar Rao, Esquire., B.A., B.L.,

Deputy Commissioner,

Kadur District.

To,

C.S. Balasundaram Iyer, Esquire., B.A.,

Chief Secretary to the Government of His Highness the Maharaja of Mysore,

BANGALORE.

Sir,

With reference to your letter No. G. 850-7 Sany. dated the12th July 1920, forwarding for opinion a note prepared by the Offg. Sanitary Commissioner Dr. A.K.Pani, on the question of relieving Sanitary Inspectors of all but their legitimate Sanitary work, I have the honor to state that the duties of Sanitary Inspectors and their relation to the local bodies have been clearly defined in Appendix B annexed to Government Order No. 5113-63 Sany. 86-13-35 dated 8th February 1917 and I believe that the local bodies are employing the Sanitary Inspectors mostly on their legitimate duties. If as stated in the note, there be instances in which a Sanitary Inspector is employed in the performance of duties ~~on~~ outside the scope of his legitimate duties and he is left practically no time for doing his legitimate work, such instances may be brought to the notice of the Board or of the Deputy Commissioner and the needful action caused to be taken. In this District, such instances do not exist so far as I am aware. It is needless to say that the Local bodies are as much interested as the Public Health Departmen in seeing that the Sanitary condition of their areas improve that the outbreak or spread of epidemic diseases is ~~prevente~~

prevented, that facilities are created for the supply of good drinking water and that houses are built with sufficien provision for light and air. They are doing their best for securing the ends in view within the means available to them and a wholesale condemnation of their work seems entirely unjustifiable.

2. The main purpose of the note seems to be to transfer the control over Sanitary Inspectors from the loca -e bodies to the District Health Officer. The Sanitary Commissi proposes that " all appointments, transfers, grant of incre ments etc and other powers of disciplinary control over Sani tary Inspectors should be vested in the Health Officers sub- ject to the general or special orders of the Deputy Commis- sioner ". This proposal cannot be accepted because (1) it is opposed to the Local Self Government Scheme, (2) it is not conducive to good work as it would place the Sanitary Inspe tors under the control of two masters, one the District Health Officer and the other the President and the Vice Pres dent of the Board and (3) it would be introducing a material change in the character of the duties of the District Health Officer which are merely advisory. The case of the Districts is not the same as that of Bangalore and Mysore where the Health Officer is practically a servant of the Board. Ever since the inauguration of the Health Department, the proposa has been brought up in one form or another and it has never been favourably received.

3. The Local Boards are responsible for all measures likely to promote the health of the public and the money required for this purpose has to come out of their funds. The Sanitary Inspectors employed by the Boards work under the President and the Vice President. Being on the spot, they have greater facilities for extracting work from the Sanitary Inspectors and scrutinizing the work done, than the District Health Officer who is in charge of the ~~entire~~

entire District. As an instance in point, I would refer to the duty laid on the Sanitary Inspector to see that new houses are constructed in accordance with the conditions prescribed in the licenses issued. Whether the Sanitary Inspector does so or not, can be more easily verified by the Amildar than by the District Health Officer. I quite agree with the Sanitary Commissioner that the Sanitary Inspectors should be made to perform their duties on definite approved lines. But nothing prevents the District Health Officer to chalk out the lines on which the Sanitary Inspectors should perform their duties, and the Local Boards including the President and the Vice President will only be too glad to give effect to any suggestions that may be made by him. Under Rule 5 of the Rules issued with Government Order No. 3447-57/San. 150-10-2 dated 8th November 1911, the diaries of the Sanitary Inspectors are to be passed on to the District Sanitary Officer who may bring such matters as he considers necessary to the notice of the Deputy Commissioner and get orders issued to the Amildar with a view to carry out the Sanitary measures advised. The rules defining the duties of District Sanitary Officers issued with Government Order No. G. 4297-36 San. 24-17-9 dated 5th September 1918 provide that the District Sanitary Officer should examine the work of the Sanitary and Assistant Sanitary Inspectors and report thereon to the Deputy Commissioner and the President of the District and Municipal Boards . They further provide that he is responsible for developing the Sanitary activities in the District and that he should endeavour to have the Sanitary defects noticed in the course of his inspection remedied by carrying on the necessary correspondence with or through the Deputy Commissioner and President of the District and Municipal Boards who is the head of the Sanitary administration and from whom all orders to the executive should emanate. The suggestions and recommendations of the District

District Health Officer always carry weight. I am incline to think that at present, the District Health Officer doe not exercise over the work of the Sanitary Inspectors as much scrutiny as is expected of him and that it is enough if the Rules now in force are worked in the spirit with which they are framed and I do not feel convinced that ma ters will in any way improve by the proposal made.

I have the honor to be,

Sir,

Your most obedient Servant,

K. Krylarkao.

Deputy Commissioner,

Kadur District.
